DIFFERENTIATORS

What makes us different is our ability to build upon the founder's **20 years' of experience and knowledge** obtained as a government civilian and defense contractor (Prime & Sub) for the USAF, her **highly regarded and respected reputation**, long-lasting relationships built in research, technology, and management, and **our 3-phase approach** for success and client satisfaction 1) Listen to the client, gather information, and ask the right questions to determine the clients actual needs 2) Combine insights, expertise, and resources to devise effective strategies and solutions 3) Execute, monitor, and manage the plan and always communicate progress with the client. **We are more than consultants, we are Team Members, Trusted Advisors, Innovative Co-Creators of Systems** in science, technology, engineering, architecture, and management.

COMPANY CONTACT & INFORMATION

Kayleb Consulting offers a broad range of consulting and support services to help simplify problems of varying complexity into high-quality, scalable, and sustainable solutions. We provide those solutions, fully understanding and addressing rapidly evolving environments, growing demands, shrinking budgets, and sometimes minimal staffing and support. As part of your team we help you minimize risks, make informed decisions, and meet demanding schedules. Though **based in Central Florida**, we are not limited to this region. Virtually or in-person, we are **capable of service** anywhere within the **United States and abroad**.
